

Shadecloth Solutions

A new, diverse collection

The MechoSystems Shadecloth Solutions box contains an expansive range of materials, which have high design appeal and are eco-friendly and technically advanced. There are seven books, 30 series, and more than 250 shadecloths—many of which are brand new.

The box

A new home for our shadecloth samples

- Unified collection.
- Compact, transparent casing.
- Simple storage solution.
- Clean, concise display.
- Recyclable.

Ergonomic design

- Convenient for handling.
- Secure and easy to fasten.
- Sturdy, clear-plastic structure.

Visually transparent shading

- A brochure comparing roller shades with other window-covering devices.

Registration card

- A registration form for staying abreast of changes or additions to the collection.

The decks

Seven individual decks

- Organized by number and color for easy identification.
- Categorized by shadecloth characteristics.

Shadecloth Selection Guide

- A guide for finding the ideal shadecloth.
- In the front of each deck.
- Technical information on openness, window glazing, and solar transmittance.

Series divider cards

- A quick, informative reference for each series.
- A list of design characteristics, certifications, density, and other data.

Shadecloths galore

- An eclectic range of over 250 shadecloths.
- The swatches arranged from light to dark.
- Individually labeled with the color number, color name, environmental certifications, warp, and openness.

QuickShip Program—Deck 7

- Our most popular shadecloths for fast, easy shipment.
